

GEOGRAPHY Intent, Implementation and Impact Newton Bluecoat C. of E. Primary School

<u>Intent</u>	<u>Implementation</u>	<u>Impact</u>
<p>Within Newton Bluecoat we have strived to improve our Geography Curriculum to encourage the children to be both curious and inquisitive about the world and its people.</p> <p>Through high quality teaching and learning we inspire the children to develop the following knowledge and skills to be successful Geographers:</p> <ul style="list-style-type: none">• Knowledge of people and places – not only local but also the wider world.• The earth's physical and human processes• Geographical skills: Collecting and analysing data, investigation skills, Map work, digital technologies• Explorative Field work where the children are engaged and enthusiastic, using the skills they have previously learnt in Practice,	<p>At Newton Bluecoat, we follow the Lancashire County Council scheme of work which covers a broad Geography curriculum for all years across different terms during the year. This scheme covers in depth knowledge of locations and places in the world, human and physical Geography as well as the essential skills in map work, field work, investigation and enquiry.</p> <p>Alongside this, the high quality teaching and learning at Newton Bluecoat School ensures the children are thrown into field work in the local community giving them the opportunity use their skills in practice. We provide opportunities for the children to embrace the curriculum gaining real life experiences on trips and visits implementing a curriculum that both revisits, recaps and is progressive throughout the whole school.</p>	<p>We measure the impact of our Geography curriculum through KLIPS for Geography alongside the other foundation subjects. These Key learning documents indicate the performance of the school, across all year groups, recording and monitoring progress ensuring progression and development in all areas of geographical learning. We aim for the children to positively discuss their Geography learning, encouraging them to undertake new adventures now and in their futures.</p> <p>It is evidenced around school the impact that our successful Geography curriculum has on our learning.</p>

GEOGRAPHY Intent, Implementation and Impact Newton Bluecoat C. of E. Primary School

developing experience and real life opportunities.

- The ability to reach conclusions, explain their findings and argue their opinions in matters of importance and current issues in society and environmental health.
- A true passion for Geography and sense of fascination about the world and our lives here.
